

GEOLOGICAL INFORMATION IN THE MISSOURI STATE UNIVERSITY LIBRARY
(compiled by Thomas G. Plymate; revised 9/16/2009)

A. BIBLIOGRAPHY AND INDEX OF GEOLOGY and GEOREF

The American Geological Institute publishes an exhaustive Bibliography and Index of Geology. The online version of the Bibliography and Index, called GeoRef, is available at

<http://library.missouristate.edu/databases/index.htm#G>

B. BOOKS

Most of the geological books are shelved on the lower level under QE, QC, GB, and TN. If you're looking for ideas for a topic, you might want to browse through these stacks. However, if you have a specific topic in mind (or better yet a specific book or author), use the on-line card catalog (SWAN):

C. MONOGRAPHS OF THE GEOLOGICAL SOCIETY OF AMERICA The Missouri State Library has nearly complete holdings of each of the following four series of GSA monographs:

1. Geological Society of America (Decade of North American Geology) Geology of North America (17 volumes), QE 71 .G48 (shelved inside Map Library)
2. Geological Society of America (Decade of North American Geology) Centennial Field Guide (6 volumes), QE 77 .C46
3. Geological Society of America Memoirs (catalogued and shelved individually by subject; use SWAN)
4. Geological Society of America Special Papers (catalogued and shelved individually by subject; use SWAN)

D. ABSTRACTS OF PRESENTATIONS AT GEOLOGICAL SOCIETY OF AMERICA MEETINGS The Missouri State University Library does not receive paper copies of the Geological Society of America Abstracts with Programs series. However, the complete text of each abstract is available online through GeoRef. Furthermore, thanks mostly to the generosity of Dr. James Miller, we have a nearly complete set of abstracts volumes from the GSA national meetings from 1970 to the present in our departmental library (TEM 326).

E. GOVERNMENT DOCUMENTS

1. USGS PUBLICATIONS (U.S. GOV. DOC.) The Missouri State University library is a U.S. Federal Government repository library. Therefore, we receive all general publications of federal agencies, including the USGS. These publications are shelved in the Government Documents section on the main floor under "I" (for Department of the Interior). These publications are catalogued in SWAN.

Bulletins	I 19.3
Circulars	I 19.4
Monographs	I 19.9
Water Supply Papers	I 19.13
Professional Papers	I 19.16
Water Resources Investigations Reports	I 19.42
Open File Reports	I 19.76 (many of these are in microform only)

2. MISSOURI GEOLOGICAL SURVEY PUBLICATIONS (MO DOC; DOC. MO)

As of September, 2009, the Missouri Geological Survey publications are being re-catalogues and re-shelved. Their new designation is (will be) MO DOC: NR. GE. For now, the majority of these reports are still shelved under their old call numbers as follows:

Reports (Annual, etc.)	QE 131 .A12 G. 13
Reports of Investigations	QE 131 .A25
Information Circulars	TN 24 .M8 A45
