

## PACIFIC NW-USA PUBLICATIONS

### PAPERS

Mickus, K., 2003, Location of the Precambrian boundary in the NW USA from the analysis gravity and magnetic data: Submitted to Pure and Applied Geophysics.

### ABSTRACTS

- Levangie, B., and Mickus, K., 2010, Mesozoic terrane boundaries in the Blue Mountains province of northeastern Oregon determined from gravity and magnetic data, presented to GSA annual meeting, Denver
- McAdam, S. and Mickus, K., 2010, A gravity and magnetic study of the Chiwaukum basin, central Washington, presented to GSA annual meeting, Denver.
- McAdam, S. and Mickus, K., 2010, A preliminary gravity and magnetic analysis of the Chiwaukum basin, central Washington, presented to North-Central/South Central GSA meeting, Branson, Mo.
- Mickus, K., 2009, Magnetotelluric models of the Snake River Plain, Idaho. Presented to the GSA national meeting, Portland.
- Mickus, K., 2009, Preliminary magnetotelluric investigation of electrical resistivity variations across the Cascade arc and Columbia River plateau basalts, Washington and Idaho, presented to Cordilleran section GSA meeting, Kelowna, BC.
- Levangie, B., Mickus, K., and Dorsey, B., 2009, Analysis of gravity and magnetic data in the Blue Mountains province, northeastern Oregon, presented to Cordilleran section GSA meeting, Kelowna, BC.
- Mickus, K., Dorsey, R., and Horrihs, B., 2008, Preliminary analysis of gravity and magnetic data in the Blue Mountains Province, Northeastern Oregon, presented to GSA meeting, Hot Springs, AR.
- Mickus, K., 2006, Gravity and magnetic analysis of the Spokane Dome, Washington, presented to the SE GSA meeting, Knoxville.
- Mickus, K., 2004, Analysis of gravity data within the Spokane Seismic zone, eastern Washington, presented to the north-central GSA meeting, St. Louis.
- Mickus, K., 2003, Gravity analysis of the Spokane Seismic zone, eastern Washington, presented to the North-Central GSA sectional meeting, KC.
- Mickus, K., 2002, Potential field evidence for the Precambrian plate boundary in the NW USA, presented to the 16<sup>th</sup> Basement Tectonics conference, Rolla Missouri.
- Mickus, K., 2001, Location of the Precambrian boundary in the NW USA from gravity and magnetic data, presented at the 63<sup>rd</sup> EAEG meeting, Amsterdam, Netherlands.
- Mickus, K., 2000, Regional gravity analysis of eastern Washington: GSA program with abstr., v. 32, p. 36.
- Mickus, K., 1998, Gravity investigation of the Coeur d'Alene mining district, Idaho, GSA Prog. Abstr., v. 30, p.12.
