

## THEORETICAL GEOPHYSICS PUBLICATIONS

### PAPERS

Hinojosa, J., and Mickus, K., 2002, Finite difference modeling of thermoelastic lithospheric uplifts: *Computers and Geosciences*, v. 28, p. 155-167.

Hinojosa, J., and Mickus, K., 2002, Hilbert Transform of Gravity Gradient Profiles: Special Cases of the General Gravity Gradient Tensor in the Fourier Transform Domain: *Geophysics*, v. 67, p. 766-769.

Mickus, K. and Hinojosa, J., 2001, Erratum to "The complete gravity gradient tensor derived from vertical gravity data: A Fourier Transform technique": *J. Applied Geophy.* 47, 169.

Mickus, K. and Hinojosa, J.H., 2001, The complete gravity gradient tensor derived from vertical gravity data: A Fourier Transform technique: *Journal of Applied Geophysics*, v. 46, 159-174.

Hinojosa, J.H., and Mickus, K.L., 1993, Foreland Basin-A Fortran program to model the formation of foreland basins due to the flexural deflection of the lithosphere caused by a time varying distributed load: *Computers and Geosciences*, v. 19, p. 1321-1332.

Montana, C., Mickus, K.L., and Peeples, W.J., 1992, Program to calculate the gravitational field and gravity gradient tensor due to right rectangular prisms: *Computers and Geosciences*, v. 18, n. 5, p. 587-602.

Mickus, K.L., and Peeples, W.J., 1992, Inversion of gravity and magnetic data for the lower surface of a two and one-half dimensional sedimentary basin: *Geophysical Prospecting*, v. 40, p. 171-193.

Mickus, K.L., Aiken, C.L.V., and Kennedy, W.D., 1991, Regional-residual gravity anomaly separation using the minimum curvature technique: *Geophysics*, v. 56, p. 279-283.

Mickus, K.L., and Baker, M.R., 1991, Program to correct anomalous subsurface temperature gradients caused by surface temperature changes: *Computers and Geosciences*, v. 17, n. 7, p. 995-1008.

### ABSTRACTS

Hinojosa, J., and Mickus, K., 2001, The gravity/gradient ratio: A first-order depth-to-source estimate: presented to AGU spring meeting, Boston, 2001.

Mickus, K., and Hinojosa, J, 1999, Gravity gradient tensor calculated from vertical gravity data, presented at 1999 European Geoscientists and Engineering meeting, Extended Abstracts, P 112, Helsinki, Finland.

Hinojosa, J. and Mickus, K., 1995, Gravity gradient tensor analysis of the New Madrid seismic zone: *EOS Trans. AGU*, v. 76, p. S93.

Hinojosa, J., and Mickus, K., 1994, Uplift history of the Colorado Plateau lithosphere: Axisymmetric numerical model: *EOS Trans. AGU*, v. 75, p. 229.

Hinojosa, J.H., and Mickus, K.L., 1993, Gravity gradient tensor calculated from geoid and vertical gravity data: *EOS Trans. AGU*, v. 74, p. 113.

Yuan, Deren, and Mickus, K.L., 1993, Conditioning of inverse problems: *EOS Trans. AGU*, v. 74, p. 394.

Mickus, K.L., and Peeples, W.J., 1989, Backus and Gilbert inversion of 2.5-D gravity and magnetic anomalies with application to Curie isothermal depth determination: presented to

he 59th annual meeting of Soc. Explor. Geoph., Dallas, Tx.  
Mickus, K.L., and Peeples, W.J., 1987, Inversion of two and one-half dimensional gravity and magnetic anomalies: EOS Trans AGU, v. 68, p. 1460.  
Baker, M.R., Mickus, K., and Roy, R., 1987, Surface temperature constraints from anomalous borehole gradients: EOS Trans AGU, v. 68, p. 1291.
